

MSIX REPORTS

INITIAL ANALYSIS REPORT

June 2017

Deloitte.
Digital

USER STORIES

A high-level definition of a requirement, containing just enough information so that the developers can produce a reasonable estimate of the effort to implement it.

USER STORIES: SPRINT 1

Global Navigation

- As a user, I want to navigate to the reports so I can select a report to view.

General Move To

- As a Data Admin, Primary, Secondary User, and/or Gov Admin, I want to view the General Move To Report in the reports panel so I can analyze student movement trends, and predict busy periods in which students are moving.
- As a Data Admin, Primary, Secondary user, and/or Gov Admin, I want to sort the General Move To report so I can sort by column and field name
- As a Data Admin, Primary, Secondary user, and/or Gov Admin, I want to filter the General Move To report so I can only see data that meets certain criteria.
- As a Data Admin, Primary, Secondary user, and/or Gov Admin, I want to export the General Move To report so I can save the report on my local hard drive

General Move From

- As a Data Admin, Primary, Secondary User, I want to view the General Move From report in the reports panel so I can analyze student movement trends; identify which States most students move from; and predict busy periods in which students are moving out of their State most frequently.
- As a Data Admin, Primary, Secondary user, and/or Gov Admin, I want to sort the General Move From report so I can sort by column and field name
- As a Data Admin, Primary, Secondary user, and/or Gov Admin, I want to filter the General Move From report so I can only see data that meets certain criteria
- As a Data Admin, Primary, Secondary user, and/or Gov Admin, I want to export the General Move From report so I can save the report on my local hard drive

WIREFRAMES / FLOWS

Wireframes and flows serve as a visual guide that represents the framework of a website and illustrates how a user would complete specific tasks.

VISUAL COMPREHENSIVES

Visual comps are page layouts of a proposed design illustrating the relative positions of text and images before the final content of those elements have been decided. The comps serve as a draft of the final layout, and if approved, are used as guides for minor design changes and production.

SPRINT REPORT

The Sprint Report shows the list of issues in each sprint, and the burndown chart.

A Burndown Chart shows the actual and estimated amount of work to be done in a sprint. The horizontal x-axis in a Burndown Chart indicates time, and the vertical y-axis indicates cards (issues).

NOTES:

The stories for Sprint 1 were blocked by need for clarification on scope of and approach to Phase I and Phase II designs. Due to a number of conversations and meetings, Sprint 1 designs were not finalized in time for engineering to complete development.

Incomplete stories were moved to the top of the backlog.

Status Report

* Issue added to sprint after start time

Issues Not Completed
