

Dieter Primig
DIRECTOR

HI, I'M DIETER PRIMIG. I'M A DIRECTOR.

WHERE I AM FROM

I was born in the lower part of Austria and grew up on the countryside, right next to the border of Italy & Slovenia, surrounded by mountains and lakes. For my parents I was enough of an uncontrolled crazy young man, so I have no siblings (yet).

MY INSPIRATION

Someone once said "Life is a story. Make sure it's an inspiring one." That's why I love drawing characters and drama from real life and always find a new path to walk on. "You just have to look closely." my grandfather liked to say. Storytelling is one of the oldest and most powerful crafts of human kind. And for me it's just absolutely fascinating how to make our beautiful round world fit into that rectangular shaped screen of yours.

WHAT I DO

I love to write & direct tragicomical stories of real characters in real settings. Don't get me wrong - this doesn't mean I don't like science fiction. I love science fiction, the more fantastic the better! For me it is about taking the right directions to stay true and on eye-level with our beloved characters in their individual world and ultimately to connect with the audience. For me this way of working, having passion for detail and to never stop pushing and polishing my talent is very important for both commercials & features. Because only then something real can emerge. Something powerful. And this will be visible in every frame of the film.
