

**Yehonatan Richter-Levin**  
DIRECTOR

**Yehonatan** was born in 1980 in Tel-Aviv. He came to Berlin in 2002 to work as a photographer and video artist. In 2005 he moved to Frankfurt to study at the art and design academy until completing his diploma in visual communications with focus on writing and directing films. In 2012 he made his first steps as a freelance director after shooting 16 video clips for the legendary German band “Die Ärzte”.

At 2017 Yehonatan joined the DJI inhouse production unit and was responsible for creating the video campaigns for the most well-known DJI products on the market. At this time he collected countless hours of experience and got specialized in using drones for film-making purposes and photography. Working with drones and other stabilized camera systems opened the door for shooting a lot of cars, outdoors, sports and in general “big pictures”.

Yehonatan’s passion is for creating films! For fun and for money.

The combination of technical knowledge and the ability to tell a story gives Yehonatan a good basis to manage his projects.
