

BRYAN GAVIGAN

Director of Photography - Represented by WPA - www.wp-a.co.uk

INTRODUCTION

Director of Photography based in the south west, primarily working in TV drama and feature films.

I made the move to exclusively working as DOP in 2020 after approaching a decade of experience as a Gaffer (In My Skin, The Last Tree). I have just finished Block 1 of a new drama for ITVX called PASSENGER with director Lee Haven Jones after shooting his second feature titled Y SWN.

I see my work as both intimate and expressionistic. It is because of this I look favourable towards projects that are open to a more sensitive and intimate visual approach.

Please find my cinematography credits to date below, for examples of my work you can find me at the address below.
